

LET *the* CHILDREN PLAY

Fundraiser

Butterfly Luau held last week!

Butterfly's story goes back 40 years, a generation! The woman who named Butterfly still sits in church every Sunday, now in her 80's with grown grandchildren of her own. Many members have children who attended Butterfly, and conversely, many of us became members here because our children attended Butterfly, becoming our gateway into this beautiful community.

Part of our Campus Renewal is a new playground, a place for music, loose parts gathered to build and pretend, water play, gardens, equipment to help with vestibular and proprioceptive development, balance, sensory integration, and growing a love for nature which is proving to ground us all.

Outside the Church Nursery in the Gathering Space you will find envelopes for giving.

Please grab an envelope that speaks to you, and Let the Children Play for the future of us all!
